PRIMARY PATENT EXAMINER

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1-6 are cancelled having been non-elected without traverse.

2. The following is an examiner's statement of reasons for allowance:

3. The main reason for allowance over the prior art is that the prior art reference, most notably the previously cited Kato et al. reference, fails to teach or suggest that the coating on the latex balls cited therein is 100 nanometers or more in thickness.

4. Claim 7 is therefore allowable, as are claims 8-9 and 12-20.

5. The restriction requirement applied to claims 12-16 is hereby withdrawn as these claims are drawn to an apparatus and further limit the structure of the device recited in claim 7.

6. Claims 1-6 are cancelled by way of Examiner's Amendment above because claim 1 is drawn to a method of utilizing the structure of claim 7, and therefore does not positively recite a further structural feature of the claim. It is the opinion of the examiner that such language as recited in claim 1, and its dependent claims, fails to comply with 35 U.S.C. 112 4th paragraph for this reason.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
